

Authorize

HecFleet – All-Rounder for Unmanned Fleet Filling Stations

We don't promise too much: The fuel terminal HecFleet with its intelligent firmware is a true all-rounder, in particular when it comes to requirements of a fleet filling station.

The variety of authorization options which can be realised with the fuel terminal HecFleet is remarkable. Mobile with the easy2fuel authorization system, automatically with the vehicle recognition PetroPoint, the secure processing of common fleet cards with routing or the authorization via your fleet card with the online authorization software FleetNet Host.

The operation at the fuel terminal is either made via the low-maintenance Piezo keyboard or via a user-friendly touch screen. The latter offers the opportunity to integrate your logo or animation.

Your Benefits

- ✓ **Very versatile and low-maintenance fuel terminal**
- ✓ **Highest security, reliability and user-friendliness**
- ✓ **Long-lived and robust aluminium housing, 100% recyclable**
- ✓ **Available as stand-alone or wall housing**
- ✓ **Manifold authorization options**
- ✓ **Comprehensive after-sales service: Support hotline employee training and repair centre**

Typical Applications

- ✓ Company and fleet filling stations

Technical Data

Dimensions	H 1600 x W 280 x D 405 mm (stand-alone) H 260 x W 440 x D 145 mm (wall-housing)
Weight	Approx. 65 kg (stand-alone) Approx. 18 kg (wall-housing)
Temperature range	-25 °C to +55 °C
Protection class	IP44
Power consumption	Basic consumption: approx. 60 VA +/-10 % With heater element: approx. 210 VA +/-10 %
Relative humidity	Up to 95 % (condensation allowed)
Display/Indication	6.5 inch TFT-touch-display
Approved mains voltage	230 V AC, +10/-15 %, 50 Hz
Fuse protection	16 A slow
Area of application	Calibratable/non-calibratable filling station range
Storage capacity	100,000 cards 10,000 transactions

Variations

- **HecFleet Touch – Basic unit**
Stand-alone version
- **HecFleet – Basic unit**
Stand-alone version with HecPin keyboard
- **HecFleet – Wall-housing**
Flexible and space-saving solution for confined spaces

Options & Packages

- **Router** for data transfer for communication via LTE, WLAN, DSL
- **RFID reader** for station cards
- **Ticket printer** for stand-alone version
- **LED illumination** for control panel
- **Push-pull or motorized card reader** for chip cards and magnetic cards ISO track 2 & 3
- **Heater element** in connection with ticket printer
- **OptiLevel** Tank Content Measuring System
- **USB flash drive** for manual data exchange and as e-journal
- **Digital voice output** in 4 different languages
- **eReady** for OCPP 1.6 protocol activation

Combine with

Central Administration: Master data and parameter administration, voucher/limit administration and product restrictions in real time, setup in your network or as SaaS solution

Live Monitoring PetroLine: Monitor status messages of the terminals in real time and quickly initiate measures in case of emergency

Mobile Payment Platform: Speed up the fuelling process and offer your fuelling customers contemporary benefits

PetroPoint: Automatic Vehicle and Driver Recognition

FleetNet Routing: Accept the fleet cards of your choice

FleetNet Host: Flexibly scale the range of your fleet card
