Heconomy BL – Starter Model for Company Filling Stations

As a starter model, the Heconomy BL fulfils all the essential requirements of a modern company filling station. The extremely interesting price/performance ratio makes the Heconomy BL highly attractive even for small fleets.

The features are reduced compared to the Heconomy thus enabling efficient fleet management even on a smaller scale at an extremely attractive price/performance ratio. Supplemented by the HecPoll management software, the Heconomy BL fuel terminal becomes the ideal system solution for your small fleet.

Your Benefits

✓ **Easy identification**

✓ **Highest user-friendliness and reliability**

✓ **Long-lived and robust aluminium housing, 100 % recyclable**

✓ **Available as wall housing**

✓ **Also for smaller fleets**

✓ **Comprehensive after-sales support: Support hotline, employee training and repair centre**

Typical Applications:

⊘ Company filling stations

Hectronic

*Smart Solutions for
parking and refuelling*

Technical Data

Dimensions	H 260 x W 440 x D 145 mm (wall housing)
Weight	Approx. 18 kg (wall housing)
Temperature range	-25 °C to +55 °C
Protection class	IP44
Power consumption	Basic power consumption: approx. 70 VA +/-10 %
Relative humidity	Up to 95 % (condensation permitted)
Display/Indication	Graphic display 240 x 128 DOTS
Permissible mains voltage	230 V AC, +10/-15 %, 50 Hz
Area of application	Calibratable/non-calibratable filling station area

Variations

- **Heconomy BL Card Reader**
  Basic unit for wall mounting or standing – including HecPoll standard version

- **Heconomy BL Proximity**
  Basic unit for wall mounting or standing – including HecPoll standard version

- **Heconomy BL MIFARE**
  Basic unit for wall mounting or standing – including HecPoll standard version
